

TRAILERWASH

Powerful heavy-duty traffic film remover and degreaser.

TRAILERWASH removes the heaviest traffic film, dirt, oils and insect debris from all vehicle exteriors.

ADVANTAGES

Concentrated formula offers excellent dilution rates and so low cost in use.

Powerful deep cleaning action is very effective in cleaning curtain sided vehicles, trucks, forklifts and refuse lorries.

Versatile formula may also be used to clean cars and light commercial vehicles.

Contains water softeners to remain effective even in very hard water areas.

Powerful degreasing action makes Trailerwash an exceptional chassis cleaner.

Note: Strongly alkaline solutions may adversely effect aluminium and galvanised surfaces. Ensure therefore that contact with these surfaces is prevented/ minimised.

TYPICAL APPLICATIONS

- Cleaning heavily soiled exteriors of tankers, lorries, transport containers, trailers, buses, vans, fork lifts, cars and taxis.
- Particularly effective for cleaning curtain-sided vehicles.
- Ideal as a pre-M.O.T. cleaner and chassis cleaner.
- Cleaning cranes, diggers, tractors and other plant equipment.
- Cleaning workshop floors.

APPLICATION INSTRUCTIONS

1. Apply Trailerwash via pressure washer or low-pressure sprayer to the side of the vehicle starting at the base and working upwards.
2. Allow a short contact time but do not allow to dry out on the surface.
3. Agitate surfaces with a soft brush where necessary.
4. Rinse thoroughly with clean water.

Trailerwash may be applied with cold water but optimum performance is achieved with hot water pressure washers. Dilution rates will vary depending upon the degree of soiling however for transport applications dilution rates between 1:60 and 1:100 are recommended. For heavy degreasing dilute at 1:10 with water.

TRAILERWASH

Powerful soil remover and degreaser

TECHNICAL DATA

APPEARANCE	Clear liquid
COLOUR	Light (or pale)
ODOUR	Mild
SOLUBILITY	Completely soluble in water
RELATIVE DENSITY	1.09
pH (concentrate)	>13.0
FLAMMABILITY	Non Flammable
SHELF LIFE	4 years
COMMODITY CODE	34029090
PACK SIZES	1,000, 210 and 20 litres

PRECAUTIONS

Avoid spilling, skin and eye contact. Wear protective clothing, gloves, eye and face protection.

STORAGE CONDITIONS

Store in original container. Upright and tightly closed in a dry and cool place.

ACCREDITATIONS & REGISTRATIONS

- Rail Cat No. 007/500042 (20lt)
- Rail Cat No. 007/007874 (210lt)
- Rail Cat No. 007/007875 (1000lt)

HEALTH AND SAFETY

Health and Safety Data sheet available separately.

The values are typical of normal production and should not be taken as a specification
