

AQUAKLENZ LF

Aqueous, low foaming and non caustic degreaser for spraywash applications

AQUAKLENZ LF is a low foaming detergent for use in parts washers, rotating spray wash cabinets and tunnel washers.

ADVANTAGES

Concentrated formulation with exceptional grease and oil removal

When used as specified, will not cause unwanted foam generation in agitation, circulation or spray washing systems

Functions effectively at all temperatures up to 90°C – optimum operating temperatures between 60 and 70°C

Non caustic

Contains a corrosion inhibitor to help prevent corrosion of cleaned components

TYPICAL APPLICATIONS

- Low foam, non caustic aqueous degreaser for spraywash applications.
- Removes residues of machine coolant, oil and grease from machined components, castings and pressings.
- Can also be used in dip tanks and ultrasonic cleaners

APPLICATION INSTRUCTIONS

For optimum cleaning results use with 65°C water at between 3% and 6% concentration (1:30 – 1:16) depending on degree of soiling.

After articles have been cleaned, rinse with hot water allowing components to flash dry. Alternatively forced air-drying techniques may be employed.

Note: Strongly alkaline solutions may adversely effect aluminium and galvanised surfaces.

Always test product compatibility before full-scale application.

AQUAKLENZ LF

Aqueous, low foaming and non caustic degreaser for spraywash applications

TECHNICAL DATA

| | |
|--------------------------|------------------|
| APPEARANCE | Liquid |
| SOLUBILITY | Soluble in water |
| COLOUR | Straw |
| pH-VALUE, CONC. SOLUTION | 12.7 |
| COMMODITY CODE | 34029090 |
| SHELF LIFE | 4 years |
| PACK SIZE | 20 litre |

PRECAUTIONS

Wear protective gloves, eye and face protection. Avoid spilling and contact with skin and eyes.

STORAGE PRECAUTIONS

Store at temperatures between 4-40 °C in tightly closed original container in a dry and cool place.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.

The values are typical of normal production and should not be taken as a specification.
