

BIOZYME

Natural enzyme liquid treatment to maintain free flowing drains and reduce odour

DC1 BIOZYME is a safe, ready to use natural liquid treatment for pipework, grease traps and septic tanks. Biozyme uses enzymes to digest organic residues, fat and grease from drains, maintaining flow and reducing odour.

ADVANTAGES

- Digests and liquefies all types of organic waste
- Begins working immediately
- Works above and below the water line
- Safe for operators, systems and the environment
- Will overcome existing bacteria responsible for malodours
- Continued 24 hour a day action
- Ideal for use in waste areas of kitchens and food processing plants

TYPICAL APPLICATIONS

- DC1 Biozyme is suitable for use in foul drains to reduce odour and maintain flow. May be added to septic tanks to reinforce the natural biological waste digestion

APPLICATION INSTRUCTIONS

DC1 Biozyme may be dosed daily down sinks and drain outlets during quiet periods. Typical dosage will be 150ml per day, or 1ml per meal produced each day, whichever is the greater.
