

DW1 Hard Water Dishwasher Detergent

A premium professional concentrated machine dishwashing detergent for hard water conditions

DW1 HARD WATER DISHWASHER DETERGENT is a highly active machine dishwasher liquid designed to rapidly break down fats, protein and starch. Highly concentrated water softeners ensure peak performance in hard water areas.

Advantages

- ▲ Rapidly removes fats, proteins and starch residues
- ▲ Highly concentrated, ideal for hard water conditions
- ▲ Suitable for use with all commercial dishwashers within catering establishments and professional kitchens

Typical applications

- ▲ Suitable for use with all commercial dishwashers within catering establishments and professional kitchens in hotels, restaurants, colleges, schools and universities in hard water areas

Application instructions

For best results, this product should be used at operating temperature range of 55 - 65°C.

Application will depend upon the type of machine in operation, typically however DW1 Hard Water Dishwasher Detergent should be applied via an automatic dispensing system directly into the machine.

Set the dosing pump to deliver 2-5g of product per litre of wash water.
