

HARD WATER RINSE AID

A premium professional concentrated machine rinse additive for use in hard water conditions

DW2 HARD WATER RINSE AID is a machine dishwashing rinse additive for use in hard water areas, that leaves crockery and cutlery sparkling and spot free. Hard Water Rinse Aid helps prevent scale build up in the machine.

ADVANTAGES

Promotes rapid drying for speed of operation, leaving a sparkling finish

Highly concentrated

Suitable for use with all commercial dishwashers within catering establishments and professional kitchens

TYPICAL APPLICATIONS

- DW2 Hard Water Rinse Aid is suitable for use with all commercial dishwashers within catering establishments and professional kitchens in hotels, restaurants, colleges, schools and universities in hard water areas
- Suitable for use on all plates, crockery, glassware and pans

APPLICATION INSTRUCTIONS

Application will depend upon the type of machine in operation, typically however DW2 Hard Water Rinse Aid should be applied via an automatic dispensing system directly into the machine.

Set the dosing pump to deliver 1-2mls of product per 5 litres of rinse water.

For best results rinse temperature should be between 82 and 90° C
