DW3 Soft Water Dishwasher Detergent

C875

A premium professional concentrated machine dishwasher detergent for soft and medium water conditions

DW3 SOFT WATER DISHWASHER DETERGENT is a highly active machine dishwasher liquid, designed to rapidly remove food residues including fats, protein and starch.

Advantages

- Rapidly removes fats, proteins and starch residues
- Highly concentrated, ideal for soft water conditions
- Suitable for use with all commercial dishwashers within catering establishments and professional kitchens
- NSF approved

Typical applications

- Suitable for use with all commercial dishwashers within catering establishments and professional kitchens in hotels, restaurants, colleges, schools and universities in soft to medium water areas

Application instructions

For best results, this product should be used at operating temperature range of 55 - 65°C.

Application will depend upon the type of machine in operation, typically however DW3 Soft Water Dishwasher Detergent should be applied via an automatic dispensing system directly into the machine.

Set the dosing pump to deliver 2-5g of product per litre of wash water depending on water hardness and the degree of soiling.

Note: Strongly alkaline solutions may adversely effect aluminium and galvanised surfaces, ensure therefore that contact with these surfaces is prevented/ minimised.
