

DW5 ALUMINIUM SAFE DISHWASHER DETERGENT

An aluminium safe machine dishwashing detergent

DW5 ALUMINIUM SAFE DISHWASHER DETERGENT is a machine dishwash liquid that is suitable for use on both ferrous and non-ferrous metals. DW5 Aluminium Safe Dishwasher Detergent contains specialist inhibitors to reduce corrosion of aluminium pans, saucepans and trays.

ADVANTAGES

Rapidly removes fats, proteins and starch residues

Highly concentrated to ensure cost effective use

Suitable on all aluminium catering pans and trays

Suitable for use with all commercial dishwashers within catering establishments and professional kitchens

Highly economical

TYPICAL APPLICATIONS

- Suitable for use with all commercial dishwashers within catering establishments and professional kitchens in hotels, restaurants, colleges, schools and universities in soft to medium water areas
- Use in conjunction with either Hard Water or Soft Water Rinse Aid

APPLICATION INSTRUCTIONS

Application will depend upon the type of machine in operation, typically however DW5 Aluminium Safe Dishwasher Detergent should be applied via an automatic dispensing system directly into the machine.

Set the dosing pump to deliver 2-5g of product per litre of wash water.

Detergent set temperature 55-65°C.
