

Erase

A quick and effective liquid graffiti remover

ERASE is a blue thickened liquid for removing aged graffiti from most indoor surfaces.

C065

Advantages

- ▲ ERASE has been developed to provide a quick response and as a safer alternative to traditional anti-graffiti products containing hazardous solvents.
- ▲ Removes most pen marker graffiti including felt tip pen, marker pens, ballpoint inks and general inks from most surfaces.
- ▲ Suitable for use on most plastics, glass, vinyl, metal and tiled surfaces.
- ▲ Formulated for use on fresh graffiti that needs to be removed quickly.
- ▲ The thickened liquid does not run off and will cling to vertical surfaces.
- ▲ Will not damage the surface underneath or put the user at unnecessary risk.
- ▲ Suitable for use in bus and train interiors as well as external surfaces.
- ▲ Convenient trigger application.
- ▲ Highly concentrated effective formula.
- ▲ Light to medium duty graffiti removal.
- ▲ Low odour.

Typical applications

- ▲ Developed specifically for use indoors in buses, coaches, colleges and schools, leisure centres, parks and gardens, rail carriages, shopping centres.
- ▲ For use by professional cleaning contractors, local authorities and transport operators.
- ▲ This product has been developed to be safe in use by trained personnel.

Application instructions

ERASE is used as supplied.

Spray onto the affected area, agitate and wipe off soiling. Repeat as necessary.

Damp sponging afterwards or buffing lightly will readily restore the surface to its original finish.
