

FASTKLEAN

A134 / C239

Fast drying electrical component and machinery cleaner and degreaser

FASTKLEAN is a rapid evaporating cleaner and degreaser designed for use on electrical components and machinery where reduced downtime is critical.

Advantages

- ▲ Fast evaporating
- ▲ Leaves a residue free finish
- ▲ Contains no aromatic hydrocarbons such as Benzene and trichloroethylene
- ▲ Excellent dewatering agent

Typical applications

- ▲ For cleaning electrical components and machinery where rapid evaporation is required

Application instructions

Manual Cleaning:

1. Switch off and isolate from power supply prior to cleaning electrical equipment
2. Apply by brush or cloth to the surface
3. Where flushing action is required use aerosol
4. Allow to fully air dry before reconnection

FASTKLEAN

A134 / C239

Fast drying electrical component and machinery cleaner and degreaser

Technical data

ODOUR	Solvent
SOLUBILITY	Partially miscible with water
FLAMMABILITY	Flammable liquid and aerosol
FLASH POINT	<0 °C (Closed Cup)
SHELF LIFE	Liquid – 4 years Aerosol – 5 years
COMMODITY CODE	Liquid – 27101221 Aerosol – 27101221
PACK SIZES	300ml aerosol 5 litre 20 litre

Precautions

Wear protective gloves, eye and face protection. Avoid spilling and contact with clothing, skin and eyes. Keep away from heat, hot surfaces, sparks and other ignition sources. Provide good ventilation. Do not breathe spray.

Storage precautions

Store in tightly sealed, original container at temperatures between 4 – 40°C.

Aerosol cans: Must not be exposed to direct sunlight or temperatures above 50°C.

Health and safety

Refer to Safety Data Sheet (available on request)
