

Stainless Steel Cleaner

A072

Cleaner & brightener for metal surfaces

STAINLESS STEEL CLEANER is a foaming cleaner that brightens and protects stainless steel, chrome plate, brass and anodised surfaces.

Advantages

- ▲ Removes finger marks, water spotting, scuffing and other general soiling.
- ▲ Ready to use.
- ▲ Foaming action allows for use on vertical or overhead surfaces.
- ▲ Suitable for use on stainless steel and all types of shiny metal surfaces.
- ▲ Cleans and brightens in one application.
- ▲ Leaves a protective film that resists finger marks, water marks and staining.

Typical applications

- ▲ Ideal for cleaning decorative metal surfaces, lifts, furniture trims, catering equipment, door handles and machinery

Application instructions

Shake can and hold 15cm away from surface to be cleaned, ensuring nozzle is pointing forwards. Spray lightly directly onto surface and wipe with a clean soft cloth. Polish to a shine.
