

THAW GRANULES

Ice and snow defrost granules

THAW GRANULES provide fast and effective prevention and removal of snow and ice from platforms, pedestrian walkways and car parks during cold conditions.

ADVANTAGES

Non stain formula

Treated to prevent wind blow and extend product coverage time

Crushes easily under foot to reduce the risk of slipping

Granular form allows for easy application

Non corrosive to concrete and steel

TYPICAL APPLICATIONS

- Suitable for use on platforms, car parks, walkways, entrances and any outdoor area where snow and ice pose a public safety risk

APPLICATION INSTRUCTIONS

Manual application

Spread thaw liberally onto pedestrian areas prior to snowfall to prevent settling

To treat existing ice and snow, scatter liberally over the surface at a rate of 1kg per 20m²

For optimum results apply when freezing conditions are forecast (below 2°C)

THAW GRANULES

Ice and snow defrost granules

TECHNICAL DATA

ODOUR	Mild ammonia
SOLUBILITY	Completely soluble in water
pH-VALUE, DILUTED SOL.	7.2
PACK SIZES	9kg pail, 1000kg IBC

HEALTH & SAFETY STORAGE AND PRECAUTIONS

Refer to Safety Data Sheet (available on request).

LIMITATIONS

For use in temperatures below 2°C

ACCREDITATIONS & REGISTRATIONS

- Rail Cat No. 007/025230 (9kg)
- Rail Cat No. 007/025231 (1000kg)
