

UNIVERSAL DE-ICER

General purpose liquid de-icer for the rail industry

UNIVERSAL DE-ICER is a fast acting de-icing solution designed for spray application to rapidly remove ice and snow residues from equipment, points, switchgear etc in the rail industry. This product complies with the requirements of the 97/633/1 specification.

Advantages

- ▲ Non-flammable and non-corrosive
- ▲ Not classified as hazardous under the CLP regulations
- ▲ Rapidly loosens frozen track ballast
- ▲ Will not damage signal or power cable insulation.

Typical applications

- ▲ Snow and ice removal from points, switchgear, ballast and other equipment used in the rail industry

Application instructions

Manual application: Apply undiluted by spray in accordance with standard operating procedures to clear snow and ice.

Note: In dry conditions application will prevent frost formation for a minimum of 3 hours
