

KETTLE & SHOWER DESCALER

For removal of scale on all types of kettles, shower-heads, taps, chrome fittings and for general limescale removal

HR11 Kettle & Shower Descaler is a versatile and effective descaling agent, formulated to provide a gentle, food-safe descaling process.

ADVANTAGES

Leaves no residue after decalcification & rinsing

Protects the appliance from harmful calcium deposits

Increases the energy efficiency of your appliances and prevents faults caused by the accumulation of lime

TYPICAL APPLICATIONS

- Kettles
- Shower – heads
- Taps and chrome fittings
- General limescale removal

APPLICATION INSTRUCTIONS

KETTLES: Pour 100ml into a kettle and add 1lt of cold water (or to the fill line). Leave overnight. Before use, empty and rinse thoroughly. Fill with clean water and boil, then rinse again. If heavily scaled, repeat above using 200ml of product. Refill kettle with fresh water, boil once and then empty.

SHOWER HEADS: Disassemble and immerse overnight in equal amounts of product and water; enough to cover the shower head. Rinse well and reassemble.

Notes: To prevent build up, descale every 6 - 8 weeks. After descaling the surface revealed may be eroded. This is caused by normal wear and tear and the prolonged effect of the limescale, not the action of the descaler. Test a small area where possible before use. Heavily scaled items may require a repeat application.

KETTLE & SHOWER DESCALER

For removal of scale on all types of kettles, shower-heads, taps, chrome fittings and for general limescale removal

TECHNICAL DATA

APPEARANCE	Clear colourless liquid
ODOUR	Characteristic
SOLUBILITY	Completely soluble in water
pH (conc. solution)	1.5
PACK SIZES	1lt

PRECAUTIONS

Avoid spilling, skin and eye contact.

STORAGE PRECAUTIONS

Store in original container at temperatures between 4 and 40°C.

HEALTH AND SAFETY

Refer to Safety Data Sheet (available on request)
