

CASE STUDY

Commercial Hygiene solutions

BEST DILUTION RATES AND COST IN USE IN THE INDUSTRY

YATES SUPPLIES - CATERING AND JANITORIAL SUPPLIES

With over 25 years' experience in the catering industry, Yate Supplies hold over 7,000 stock lines at any one time. Based in a 50,000 sq. ft warehouse North of Bristol, Yate pride themselves on excellent service and a real alternative to national competitors and online wholesalers. Arrow have worked with Yate Supplies on large Commercial Hygiene projects over the past 4 years, supplying Little Chef, Leon and Caviar House with exceptional cleaning solutions.

CHALLENGE

Yate Supplies were looking at expanding their commercial cleaning solutions range with products that have exceptional dilution rates, deliver excellent cost in use and allow routine yet vital tasks to be completed.

SOLUTION

Arrow had the perfect response, offering catering solutions that maintain safe, clean and hygienic commercial kitchens. Dishwashing, oven cleaning, drain maintenance and sanitising products were supplied, which offer a cleaning solution to the highest standard. Yate Supplies hold over 80 Arrow Commercial Hygiene products and can confirm a good response from customers on all products. Yate can rely on Arrow's pick of Commercial Hygiene solutions when pitching against competitors, often championing the cost reduction benefits and superior quality.

"Arrow were able to meet our requirements from the start, providing quality products with some of the best dilution rates and cost in use in the industry. Expanding our offer to the client base with solutions that we trust is imperative to the success of our business. As a distributor, we are extremely satisfied with Arrow's professionalism, product training and the resources they make available. Arrow come highly recommended."

Emma Brown, Purchasing Manager, Yate Supplies Limited

COMMERCIAL HYGIENE RANGES

Professional cleaning and maintenance

DW DISHWASHER RANGE

Arrow Solutions' Dishwasher Detergents and Rinse Aids are specifically designed for hard and soft water areas. The range is completed by our Chlorinated and Aluminium Safe Detergents as well as our Glasswash Detergent and Glass Rinse products.

KR KITCHEN RANGE

The Kitchen Range of cleaning and maintenance products has been designed specifically for the modern day commercial kitchen. Arrow Solutions provides products that clean, de-grease and sanitise all aspects of the commercial kitchen. Our kitchen concentrates also offer low cost, measured dosing solutions.

HR HOUSEKEEPING RANGE

Our Housekeeping Range has now been expanded to include our measured dose concentrates that offer the same Arrow Solutions quality but now with the added benefit of real cost reductions to your cleaning requirements.

WR WASHROOM RANGE

The Washroom Range from Arrow Solutions includes products suitable for a range of applications including a low cost, measured dosing washroom cleaner concentrate.

FR FLOOR RANGE

Arrow Solutions' Floor Range is made up of a suite of products formulated for the application or removal of polishes and cleaners from a variety of finishes, including natural stone, tile, vinyl, rubber, linoleum and anti-slip surfaces.

DC DRAIN CARE RANGE

By offering products that break down a variety of fats and other organic material that can cause blockages to drains, Arrow Solutions' Drain Care Range can keep drainage systems free flowing and help to reduce the need for expensive call outs or increased maintenance.
