

ADHESIVE SPRAY

Multi-purpose contact adhesive

ADHESIVE SPRAY is a convenient and versatile adhesive, designed to provide effective bonding between surfaces. Adhesive Spray is a flexible, medium strength adhesive, which is suitable for bonding porous surfaces, wood, fabric and metal.

ADVANTAGES

Synthetic rubber base provides an elastic bond and is ideal for use on porous and flexible surfaces.

Rapid tack formula provides speedy bonding.

Convenient no mess aerosol application.

Variable spray nozzle for greater control.

Provides even distribution of adhesive over large areas.

TYPICAL APPLICATIONS

- Adhesive Spray can be used to bond paper, cardboard, cork, wood, metal, plastic and fabric substrates.
- Medium duty bond strength is ideal for adhesion of labels, carpet floor tiles and fabric trim.
- Ideal for production, DIY tasks, craft and office applications

APPLICATION INSTRUCTIONS

1. Use only as directed.
2. Ensure surface is clean, dry and dust free.
3. Shake can.
4. Set variable width spray button.
5. Hold can 15 cm from surface and liberally apply adhesive.
6. Leave to tack and then bond, allow 15 minutes to dry.
7. Invert can and spray to clear nozzle.
8. While Adhesive Spray will provide an initial bond, full strength will be achieved in 24 hours.

Note: Wherever possible pre-test surfaces for compatibility and bond strength prior to full scale application. Unsuitable for use on solvent sensitive plastics and polystyrene.

ADHESIVE SPRAY

Multi-purpose contact adhesive

TECHNICAL DATA

APPEARANCE	Aerosol
COLOUR	Amber
ODOUR	Solvent
SOLUBILITY	Insoluble in water
PACK SIZES	400ml aerosol

PRECAUTIONS

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

STORAGE PRECAUTIONS

Store at temperatures between 4°C and 40°C. Store in a well-ventilated place.

Do not expose to temperatures exceeding 50°C/122°F.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.
