

Mask

C213

Industrial re-odorant with a concentrated vanilla fragrance

MASK is a concentrated vanilla deodoriser, designed to mask foul and stale odours, leaving areas smelling fresh.

Advantages

- ▲ Aerial re-odorant, which has been formulated for use in areas affected by unpleasant odours.
- ▲ Disguises unpleasant odours arising from agricultural, industrial and effluent treatment processes.
- ▲ Imparts a strong, pleasant vanilla fragrance.
- ▲ Highly concentrated, economical and effective over wide areas at low concentrations.
- ▲ Versatile and can be used for many different applications.

Typical applications

- ▲ Mask is effective in the treatment of foul smelling drains and sewers, waste treatment and processing plants, masking unpleasant odours emanating from industrial processes.
- ▲ Aerial re-odourising of sewage works, pig and poultry farms, refuse areas and waste tips, animal by-product plants, chemical plants, showground or sports stadium toilet systems, tanneries.
- ▲ Spray re-odourising of waste bins, waste collection areas, foul drainage systems, refuse skips, litter bins, drains in washrooms and toilets, refuse collection vehicles, floors and walls affected by contamination with waste products.

Application instructions

Aerial re-odourising:

For the treatment of bad smells arising from airborne sources, Arrow Mask is misted or fogged into the air in the form of small, atomised particles. This atomisation is achieved by passing a 1-2 % (1:50 – 1:100) solution through a fogging machine situated slightly upwind of the source of the smell.

Spray re-odourising:

For the treatment of small, localised sources of bad odours, spray the area using a pump-up sprayer containing a 1-2% (1:50 – 1:100) solution of Mask in cold water.

For the treatment of foul smelling drains and sewers, pour a 2% (1:50) solution of Mask down the drain at the end of the day or after each working shift.

Mask

C213

Industrial re-odorant with a concentrated vanilla fragrance

Technical data

APPEARANCE	White/ off-white liquid
ODOUR	Vanilla
SOLUBILITY	Completely soluble in water
pH-VALUE, CONC. SOL.	7.0
PACK SIZES	5 litre 1000 litre

Health and safety, storage and precautions

Refer to Safety Data Sheet (available on request)
