

Powersolve Wipes

Effective removal of semi-cured adhesives & sealants, lacquers, resins and inks

POWERSOLVE WIPES have been developed as a general purpose degreasing wipes, impregnated with a blend of solvents designed to provide a quick and effective removal of resins, adhesive and inks combined with rapid drying and minimal residue.

Advantages

- ▲ Convenient portable impregnated degreasing wipes.
- ▲ Self-sealing tub for safe storage and extend lifetime.
- ▲ Wipe resists tearing, linting and removes ingrained resins, adhesive and inks effectively.
- ▲ Minimum residue.
- ▲ Can reduce solvent consumption, reducing cost in use and aiding compliance with VOC limits.
- ▲ Rolls-Royce plc approved wipe cleaner.

Typical applications

- ▲ For the removal of inks, resins, adhesives and uncured paints and sealants.
- ▲ Suitable for use in a wide range of industrial and commercial environments, where a convenient and quick use degreaser is required in wipe format.
- ▲ Wipe degreasing of general surfaces, components or tools.

Application instructions

Remove lid and pull first sheet through centre hole and pull at a slight angle.

Reseal lid.

Wipe the area to be cleaned, refolding after each pass to expose uncontaminated cloth.

Allow to air dry.
