

Spray Grease

Effective lubricating white grease

SPRAY GREASE aerosol provides a specially formulated blend of lubricants that displace and repel water, resist heat and salt attack and provide long-lasting lubrication and protection against the elements, packaged in a convenient aerosol spray can.

Advantages

- ▲ Provides long-lasting lubrication and protection against wear and corrosion.
- ▲ Low residual odour.
- ▲ Provides medium to heavy lubrication of components, hinges, linkages and bearings.
- ▲ Dispels water, resists salt attack and wash off.
- ▲ Residual lubricant remains effective at up to 250°C.

Typical applications

- ▲ Ideal for routine maintenance, repair and assembly of components, machinery, plant and equipment.
- ▲ Suitable for the lubrication of locks, hinges, splines, linkages and other moving parts.

Application instructions

Shake can before use.

Remove any dirt or grit residues.

Spray liberally onto the mechanism and allow to dry.

Notes: Do not spray onto hot or incandescent surfaces.
