

ANTI-STATIC OPTICAL CLEANER

Ready to use multi purpose anti static cleaner

ANTI STATIC OPTICAL CLEANER is a versatile ready to use hard surface cleaner containing specialist anti-static agents, that prevents the build-up of static charges upon treated surfaces.

Advantages

- ▲ Excellent light duty cleaner, rapidly removes dust and dirt from a wide variety of surfaces.
- ▲ Contains specialist anti-static agents to dissipate and prevent the build-up of static charges.
- ▲ Prevents attraction of dust and malfunctions of sensitive electronic equipment.
- ▲ Buffs easily to a smear free finish.
- ▲ Suitable for use on plastic, glass and metal surfaces.
- ▲ Convenient ready to use trigger spray.
- ▲ Silicone free.

Typical applications

- ▲ Ideal for cleaning most hard surfaces including work stations, desktops, computer terminals, keyboards, VDU screens and phones.
- ▲ Can also be used to clean non-coated optical equipment and optical sensors.
- ▲ Ideally suited for use in offices, computer/electronic maintenance/ production and any areas where the creation of static or attraction of dust is a problem.
- ▲ Suitable for large scale applications (larger pack sizes available on request).

Application instructions

Spray the product directly onto a soft clean lint free cloth.

Wipe evenly over the surface to remove dust and dirt.

Buff dry lightly with a soft dry lint free cloth.

Ensure all electrical equipment is switched off and unplugged prior to application and use. Ensure all equipment is dry prior to reconnection.
