

HANDISAN AEROSOL

Bactericidal hand spray

HANDISAN AEROSOL is a hygienic, rapid and convenient way of sanitising prior to handling food or performing duties where a high degree of cleanliness is necessary.

ADVANTAGES

Proven effective against all enveloped viruses, including Covid-19, SARS, Hepatitis B, HIV and Influenza.

Handisan Aerosol is a denatured alcohol-based hand sanitiser spray.

Effective quick drying sanitising hand spray.

Handisan evaporates quickly on the hands and requires no additional drying.

Non perfumed.

Portable aerosol, ideal for field operatives and use where wash facilities are not available.

Can also be used as a sanitiser on hard surfaces such as plastic, metal, glass or wood.

70% ethanol by volume in the liquid concentrate.

Aerosol Concentrate passes BS EN 14476 with 2 minute contact time.

TYPICAL APPLICATIONS

- Hand sanitisation in food processing environments.
- Ideal for use in the healthcare sector and by nursing homes.
- This product is also effective in all areas where hand hygiene is essential for use by care assistants, domestic staff, police, fire, ambulance and rescue service personnel for protection against cross-infection.
- Small aerosol container enables easy carrying for individuals going about their duties.
- Sanitising hard surfaces such as plastic, metal, wood and glass.

APPLICATION INSTRUCTIONS

Remove the cap and spray for up to 2 seconds onto the hands. Rub the hands until dry.

For surface sanitisation ensure that the surface is clean, spray onto surface, allow a suitable contact time and wipe dry with a clean cloth.

Replace the cap to prevent accidental spray off.

HANDISAN AEROSOL

Bactericidal hand spray

TECHNICAL DATA

APPEARANCE	Aerosol
ODOUR	Alcohol
FLAMMABILITY	Highly flammable aerosol
