

GERMFREE FAB

Food area biocidal cleaner and terminal sanitiser

GERMFREE FAB is a combined detergent cleaner and terminal sanitiser, designed to clean and sanitise surfaces in food preparation and processing environments. Germfree FAB contains broad-spectrum biocides, it is highly effective, versatile and may be applied to most hard surfaces. When used as a final rinse additive Germfree FAB provides excellent terminal sanitisation.

ADVANTAGES

Broad spectrum biocide conforms with EN1276

Cleans and sanitises

Concentrate allows for application dilution

Non caustic formula

Non- perfumed to reduce the risk of tainting food

Easy rinse formula

NSF approved

Notes: Effective at the following dilutions:
 Escherichia coli: 1:180 (0.55% v/v)
 Enterococcus hirae: 1:180 (0.55% v/v)
 Staphylococcus aureus: 1:180 (0.55% v/v)
 Pseudomonas aeruginosa: 1:50 (2% v/v)
 M.R.S.A.: 1:100 (1% v/v)

TYPICAL APPLICATIONS

- For use in areas requiring high standards of food hygiene
- Can also be used as a cleaner and sanitiser in schools, offices, canteens and nursing homes
- Can be used for sanitising work surfaces, fridges, freezers, microwave ovens, floors, walls, ceilings, tiles, vending machines and the interiors of food delivery vehicles

APPLICATION INSTRUCTIONS

Germfree FAB can be applied using high or low pressure sprays, by mop or cloth.

Apply diluted product to the surface, allow a short contact time to penetrate soiling, agitate where necessary and rinse with clean water.

CONDITIONS

DILUTION RATE

Terminal sanitisation	1:50
Light soiling and final rinse	1:50
General Use	1:25
Heavy Soiling and Contamination	1:10
