

Glass Foam

Foaming Mirror and Glass Cleaner

Glass Foam is a foaming window and glass cleaner aerosol, designed to remove finger marks, grease and nicotine from glass surfaces, restoring their original clarity and brilliance.

Advantages

- ▲ Foam increases dwell time and cling to vertical surfaces.
- ▲ Reduces run off and highlights where the product has been applied.
- ▲ Foam is quick breaking for ease of removal.
- ▲ Smear free finish.
- ▲ Fresh lemon fragrance.

Typical applications

- ▲ Use on Windows, mirrors, other glass surfaces and perspex.

Application instructions

Shake can thoroughly
Apply sparingly to the surface
Wipe with a clean dry cloth until all residue has been removed
